OBJECTIVE

B.Tech Computer Science student with 1+ year of experience in software and web development. Skilled in programming, data structures, and building real-world applications.

SKILLS AND INTERESTS

Programming Languages	C, C++, Python, JavaScript
Frontend Technologies	HTML5, CSS3, Bootstrap, React.js , Next js
Database	SQL
DevOps & Tooling	Git
Soft Skills	Critical thinking, Data-driven decision making, Project ownership

EDUCATION

NETAJI SUBHASH ENGINEERING COLLEGE

Oct 2022 - June 2026

Bachelor of Technology in Computer Science & Engineering (CGPA 8 / 10)

EXPERIENCE

Software Engineer Intern | Rhipheus LLC

Dec 2025 - Present

- Learning and developing backend systems using **.NET** with **Azure services**, focusing on REST APIs, authentication, and backend development.

Software Engineer Intern| ChildTynker

Dec 2024 – Jul 2025

- Co-developed a production EdTech platform serving 500+ active users using React.js, Node.js, and Firebase.
- Built admin features for class scheduling, user management, and payments in collaboration with educators and designers.
- Improved application performance by 30% through frontend and API optimizations.
- Worked in Agile sprints, contributing to feature delivery, testing, and performance analysis.

Co-Founder & Product Engineer | CutsPay

Jun 2023 – Jul 2024

- Co-founded and engineered a digital payments platform, leading **MVP development, API design, and product roadmap**.
- Built payment features using **React.js and Firebase** and represented the startup at **IIT/IIM competitions**, winning **national innovation awards**.

CERTIFICATIONS

- **Problem Solving with C++ programming language**
- **Python Complete Course And Flask Framework, HTML Essentials**

PROJECTS

Agency Operating System

- Implementation of an internal operating platform for freelancers and small agencies supporting project tracking, client approvals (token-based), and automated invoicing workflows.
- Built on Next.js, TypeScript, SQL, with emphasis on secure access control and scalable backend architecture.

StudioCloudChild – Workshop Booking Platform

- Implementation of a responsive workshop booking system with emphasis on usability and operational efficiency.
- Built using **React.js and CSS**, incorporating analytics to track engagement and support iterative improvements.

POSITIONS OF RESPONSIBILITY

Logistics Head – Entrepreneurship Development Cell (ED Cell)

- Managed end-to-end logistics for three business and entrepreneurship events, coordinating operations, resources, and cross-team execution.

HOBBIES AND INTEREST

- Participating in hackathons and business case competitions
- Badminton
- Football
