TESTIMONIALS-

your smiles our real estate

In my coaching sessions with Devang Patel, I developed, evolved and launched five new service products for my export consulting firm.

I am indebted to his help.

Not only did he break my mindblocks but also made me realize that I can do it!

Mr Devang helped us with ideating, and creating a new service in our IT and ITES service basket, We as a promoter team were growth coached and consulted on developing and executing a IT consulting business- if everything goes well, we will have a gross turnover more that what we could do for our firm Fusion Informatics in last 20 years. Thanks Devang for sowing the seed of growth in our business.

Thank you coach. Thank you for making me understand that I have more within me than I ever imagined. Thank you for crafting a new product strategy and helping us setting ourselves on the growth momentum. Thank you for helping us in the team remove mindblocks to growth and setting us free from our own barriers. Best wishes
